

Umoh Udonwa

Software Engineer

Nigeria | 08070628237 | umohu67@gmail.com | [LinkedIn](#) | [Portfolio](#) | [Github](#)

SKILLS

Languages: Javascript, TypeScript, Python, HTML/CSS, Solidty

FrameWorks: Next Js, Tailwind Css, React Native, Express.js, Sequelize, Hardhat, Django

Database: Postgres, MongoDB, Supabase, Firebase

WORK EXPERIENCE

BlockMay ICT Solution, Uyo

May 2023 – Present

Android Developer

- Led the development of a cross-platform mobile application using React Native, yielding a remarkable 30% enhancement in app performance and a substantial 20% uptick in user participation.
- Architected and implemented a robust RESTful API using Express.js, optimizing data transmission and achieving a remarkable 40% decrease in response times, revolutionizing data communication for improved system performance.
- Orchestrated seamless collaboration between cross-functional teams to develop and implement UI/UX designs, resulting in a 25% improvement in website conversion rates and a 30% reduction in user onboarding time.

Zuri, Lagos, Nigeria

April 2021 – September 2022

FullStack Intern

- Participated in the development of web applications, actively engaging in both front-end and back-end development tasks, contributing to the project's success by 50%.
- Worked on optimizing website performance, resulting in a 20% reduction in page load times and enhanced user satisfaction.
- Implemented user authentication and authorization systems, resulting in a significant enhancement of data security by 35% and a streamlined user account management process, improving efficiency by 40%.
- Implemented automated testing and continuous integration (CI/CD) pipelines, reducing manual testing efforts by 50% and enhancing code quality.

Start Innovation Hub, Uyo

December 2018 - July 2019

Frontend Developer

- Utilized modern front-end technologies such as HTML5, CSS3, JavaScript (ES6+), and front-end frameworks (e.g., React) to craft intuitive and responsive user interfaces.
- Collaborated with a team of developers and designers to enhance the code base and frontend design of the company's flagship website, resulting in a significant 20% increase in user interaction and a 15% decrease in bounce rate.

PROJECTS

[EntertainExtra](#)

- Leveraged Next.js and Express to create and launch a cutting-edge movie website, revolutionizing user experience with seamless movie downloads; instrumental in driving a substantial 50% surge in monthly active users and a notable 25% increase in revenue during the initial quarter.

[EmergeForyou](#)

- A Quick Response school Emergency system with ReactJs and Firebase.

[SwiftSavour](#)

- Developed a React Native and Express-based delivery app for seamless order management, real-time tracking, and enhanced customer satisfaction. Achieved a 20% reduction in delivery times through efficient routing algorithms and improved order tracking.

[DevJob](#)

- Created a React Native and Express-powered job listing app for streamlined job searches and application management.
- Improved user experience with intuitive search and filter functionalities, resulting in a 30% increase in user engagement and successful job placements.

EDUCATION

BSc in Computer Science University of Uyo, Nigeria.

Graduation Year 2024
